Shane says, *"The community building process, I believe, is a potent avenue to psychological and spiritual awareness resulting in greater understanding of self and others. On this journey together we develop an understanding of 'feeling' truly alive. To feel so alive, through simply being authentically 'human' with each other, is one of life's most important educations."*

Community Building Workshop

Based on the writings of

Dr M Scott Peck

(author: The Different Drum, The Road Less Travelled)

“There is a yearning in the heart for peace. Because of the wounds, the rejections, we have received in past relationships, we are frightened by the risks. In our fear we discount the dream of authentic community as merely visionary. But there are rules by which people can come back together, by which the old wounds are healed... in a world which has almost forgotten the glory of what it means to be human” ...Dr M Scott Peck.
